### Word of Mouth...

Many of our families initially hear about Sacred Heart Catholic School (SHCS) through a personal referral from an existing school family. Now we want to reward you for promoting our school to your family and friends!

Through our New Student Referral Program, your family can receive a \$500 tuition credit per new student referred into SHCS. Refer a family that enrolls two students and receive a \$1000 credit, three students and receive a \$1500 credit.

Social media has dramatically changed the way children communicate with each other. It is important to know how to talk to children about social media safety before they make a damaging mistake with lasting consequences. The Catholic Schools Center of Excellence is excited to bring Josh, Ochs, a nationally – renowned social media safety speaker to the Archdiocese on March 7,8,9<sup>th</sup>. **Click on the link to learn more.**

### 2017-2018 School Calendar

The Robbinsdale School calendar is now posted for the 2017-2018 school year. We have made **one change** to this calendar.

**October 18<sup>th</sup> –Robbinsdale is in session but Sacred Heart will not have school.** The Archdiocese is planning a day retreat for all the Catholic teachers in the Archdiocese at the Convention Center. We feel it is important that our teachers attend.

**However, we will be in school on Tuesday, November 7<sup>th</sup>.** Robbinsdale does not have school but WE WILL BE IN SESSION. Since the district is not in school, there will be NO BUSSING. Parents will have to transport their child to school this day. If needed, students may attend our after school care program. We hope this will not be an inconvenience for our families.

Please click the link below to access the district calendar.

**Totino-Grace Arduino workshop: grades 6 and 7**

**6<sup>th</sup> and 7<sup>th</sup> graders partner with Totino-Grace High School Engineering Dept.** Our students had the opportunity to use Arduino, which is an open-source electronics platform. Our students learned how to use this software to build electronics projects. Arduino consists of both a physical, programmable circuit board and a piece of software that runs on the computer, used to write and upload the computer code to the physical board. Thank you to Totino-Grace teachers and students for helping our students learn all about programming.
