

Student Immunization Information

Robbinsdale Area Schools is committed to a healthy and safe learning environment. MN law requires certain immunizations, or written proof of exemption, for students to attend school. <u>Students are not allowed to attend school until they are in compliance with current state health requirements.</u>

Ways to comply with MN Immunization Law:

- 1. Obtain required school entrance immunizations and provide documentation to the school health office.
- 2. Exemptions:
 - A. *Medical:* Obtain a licensed health care provider signature for medical exemption(s) and provide documentation to the school health office.
 - B. Conscientious Objection: Obtain a signed notarized statement for conscientious objection(s) and submit to the school health office.

Please see the following pages for more information. The chart on the last page shows required vaccinations by grade level.

Call the school health office if your student does not have a regular clinic or is unable to get an immunization appointment.

Thank you for your attention to this important issue. For more information go to www.rdale.org>Departments>Health Services>Immunizations.

Immunization Requirements

Use this chart as a guide to determine which vaccines are required to enroll in child care, early childhood programs, and school (public or private).

Find the child's age/grade level and look to see if your child had the number of shots shown by the checkmarks under each vaccine. The table on the back shows the ages when doses are due.

Immunizations recommended but not required:

Influenza

Annually for all children age 6 months and older

Rotavirus For infants Human papillomavirus At age 11-12 years

- 1) Not required after 24 months.
- 2 If the child has already had chickenpox disease, varicella shots are not required. If the disease occurred after 2010, the child's doctor must sign a form confirming disease.
- 3 First graders who are 6 years old and younger must follow the polio and DTaP/DT schedules for kindergarten.
- 4 Fifth shot of DTaP not needed if fourth shot was after age 4. Final dose of DTaP on or after age 4.
- (5) Fourth shot of polio not needed if third shot was after age 4. Final dose of polio on or after age 4.
- 6 Need proof of at least three tetanus and diphtheria containing doses. If up to date on DTaP/DT series, no additional doses needed.
- 7 An alternate two-shot schedule of hepatitis B may also be used for kids age 11 through 15 years.
- One dose of Tdap is required beginning at 7th grade. Also need proof of at least two tetanus and diphtheria containing doses (DTaP/DT/Td). If a child received Tdap prior to 7th grade, another dose of Tdap is not needed.
- 9 One dose is required beginning at 7th grade. The booster dose is usually given at 16 years.

Exemptions

To enroll in child care, early childhood programs, and school in Minnesota, children must show they've had these immunizations or file a legal exemption.

Parents may file a medical exemption signed by a health care provider or a non-medical exemption signed by a parent/guardian and notarized.
