Hi Molly

I completely understand the need to get a decision made and the information out to parents in as timely a manner as possible, and I apologize that we are unable to connect this afternoon.

I will say that while there is definitely room for negotiation, we really do need to implement an increase. We are at a point where we can no longer absorb the drastic, and unforeseen, increase in both food and labor costs. The last thing we want to do is force valued partners to have to cancel our contract and go out for bid, but we are at a point where we need to start passing those increases along. Again, let me stress that it truly is important to us to be able to come to a feasible agreement for all parties concerned.

Thank you for your understanding! Jessica
